MAAM-009451

Broadband CATV Single Ended 3-Way Active Splitter
50 - 1100 MHz

Features
- 3-Way Splitter
- Single Ended Input and Outputs
- 3.0 dB Gain
- +15 dBmV / Channel Input
- 4.5 dB Noise Figure
- Lead-Free 2 mm 8-Lead PDFN Package
- Halogen-Free “Green” Mold Compound
- RoHS* Compliant and 260°C Reflow Compatible

Description
The MAAM-009451 CATV 3-way active splitter is a GaAs MMIC which exhibits low noise figure and distortion in a lead-free 2 mm 8-lead PDFN plastic package. The design features 75 Ω inputs and outputs.

The MAAM-009451 is ideally suited for multi-tuner set top boxes, home gateways, and other broadband internet based applications.

The MAAM-009451 is fabricated using M/A-COM Technology Solutions’ pHEMT process to realize low noise and low distortion. The process features full passivation for robust performance and reliability.

4. Exceeding any one or combination of these limits may cause permanent damage to this device.
5. M/A-COM Technology Solutions does not recommend sustained operation near these survivability limits.
6. These operating conditions will ensure MTTF $> 1 \times 10^6$ hours.
7. Junction Temperature ($T_J$) = $T_C + \Theta_{JC} \times (V \times I)$
   Typical thermal resistance ($\Theta_{JC}$) = 101°C/W.
   a) For $T_C = 25°C$,
      $T_J = 62°C @ 3.3$ V, 110 mA
   b) For $T_C = 85°C$,
      $T_J = 120 °C @ 3.3$ V, 105 mA

### Handling Procedures
Please observe the following precautions to avoid damage:

#### Static Sensitivity
Gallium Arsenide Integrated Circuits are sensitive to electrostatic discharge (ESD) and can be damaged by static electricity. Proper ESD control techniques should be used when handling these devices.

An external protection circuit using an inexpensive anti-parallel diode pair can be used to protect the IC.

Please reference application note AN3028 on [http://www.macomtech.com](http://www.macomtech.com) for further detail.
