MACPCC0002

Low Cost SMT 17dB Bi-Directional Coupler
824 – 960 MHz

Rev. V3

Features
- Device is Bi-Directional
- Small Size and Low Profile
- Superior Repeatability
- Typical Insertion Loss 0.3 dB
- Typical Directivity 15 dB
- 2 Watt Power Handling
- Lead-Free SO-8 Package
- 100% Matte Tin Plating over Copper
- Halogen-Free “Green” Mold Compound
- 260°C Reflow Compatible
- RoHS* Compliant Version of CH20-0032-17G

Description
M/A-COM’s MACPCC0002 is an IC based monolithic bi-directional coupler in a low cost SO-8 plastic package. This 17 dB coupler is ideally suited for applications where power monitoring, small size, low insertion loss, superior repeatability, and low cost are required. Typical applications include base station switching networks, power monitoring in hand-helds and other communication applications where size and PCB real estate is a premium. Available in tape and reel.

The MACPCC0002 is fabricated using a passive-integrated circuit process. The process features full chip passivation for increased performance and reliability.

Functional Block Diagram

1. Pins 2, 3, 6, and 7 must be RF and DC grounded.

Handling Procedures

Please observe the following precautions to avoid damage:

Static Sensitivity

GMIC Circuits are sensitive to electrostatic discharge (ESD) and can be damaged by static electricity. Proper ESD control techniques should be used when handling these devices.
