Dear Valued Customer:

This notice is to inform you that Mindspeed Technologies has upgraded the device status of the M02016-3AP (prototype) to M02016-3A (production ramp) device qualification status.

Purpose

The purpose of the device qualification is to ensure that all Mindspeed products meet internal requirements for process, package, configuration and product compliance in accordance with Mindspeed Quality Assurance and Reliability department specifications.

Description of Change

The M02016-3A device will no longer be manufactured and/or marked using the prototype (P) configuration on the wafer or waffle pack identification label.

The part number(s) will change as follows: M02016-3AP will become M02016-3A

Change Schedule

The device marking changes will take effect starting with any M02016-3A product manufactured after May 03, 2004.

Qualification Data

Pre-production level reliability testing has been performed and passed in accordance with published Mindspeed requirements.

Customer Impact

This change should not cause any disruption or impact. Any product acquired from Mindspeed Technologies after May 03, 2004, will not require product waiver documentation and shall be treated as fully compliant product regardless of any existing (P) device markings. This product is in full compliance with the aforementioned reliability results and meets all supplied device specifications.

If additional information is needed, please contact your regional sales office.
Customer Acknowledgement Form

(To be filled out by the customer and returned to Mindspeed Technologies)

The indicated Customer Notification letter was received and acknowledged by the undersigned authority.
