Product Change Notification

M02040-14 Device Qualification Status Upgrade

Dear Valued Customer:

This notice is to inform you that Mindspeed Technologies has upgraded the device status of the M02040-14P (prototype) to M02040-14 (production ramp/pre-production) device qualification status.

Purpose

The purpose of the device qualification is to ensure that all Mindspeed products meet internal requirements for process, package, configuration and product compliance in accordance with Mindspeed Quality Assurance and Reliability department specifications.

Description of Change

The M02040-14 device will no longer be manufactured and/or marked using the prototype (P) configuration on the 16 lead QFN/MLF package.

The part number(s) will change as follows:

M02040-14P	will become
M02040-14	

Change Schedule

The device marking changes will take effect starting with any M02040-14 product manufactured after January 26, 2005.

Qualification Data

Pre-production level reliability testing has been performed and passed in accordance with published Mindspeed requirements.

Customer Impact

This change should not cause any disruption or impact. Any M02040-14 product acquired from Mindspeed Technologies on or after January 26, 2005, will not require product waiver documentation and shall be treated as fully compliant product regardless of any existing (P) device markings. This product is in full compliance with the aforementioned reliability results and meets all supplied device specifications.

If additional information is needed, please contact your regional sales office.
