Product Change Notification M02046-14 Device Qualification Status Upgrade

Dear Valued Customer:

This notice is to inform you that Mindspeed Technologies has upgraded the device status of the M02046-14P (prototype) to M02046-14 (production ramp/pre-production) device qualification status.

Purpose

The purpose of the device qualification is to ensure that all Mindspeed products meet internal requirements for process, package, configuration and product compliance in accordance with Mindspeed Quality Assurance and Reliability department specifications.

Description of Change

The M02046-14 device will no longer be manufactured and/or marked using the prototype (P) configuration on the 16 lead QFN/MLF package.

The part number(s) will change as follows: M02046-14P will become
 M02046-14

Change Schedule

The device marking changes will take effect starting with any M02046-14 product manufactured after February 03, 2005.

Qualification Data

Pre-production level reliability testing has been performed and passed in accordance with published Mindspeed requirements.

Customer Impact

This change should not cause any disruption or impact. Any M02046-14 product acquired from Mindspeed Technologies on or after February 03, 2005, will not require product waiver documentation and shall be treated as fully compliant product regardless of any existing (P) device markings. This product is in full compliance with the aforementioned reliability results and meets all supplied device specifications.

If additional information is needed, please contact your regional sales office.
