Customer Notification
M29320-14 UBM Coating and Lid Adhesive Change

Dear Valued Customer:

This notification is for the purpose of informing you of a change to the coating material used in the flip chip bumping process and the lid attachment adhesive.

Purpose
Mindspeed’s subcontractor, ASE, is consolidating the flip chip assembly materials to their standard materials. This includes the UBM coating and the lid attach materials. With this change, Mindspeed will be enhancing package robustness by changing from a 2 piece lid to a single piece lid, and ink mark to laser mark. The following table identifies the changes:

The affected part numbers is M29320-14.

Change Schedule
Customers can begin receiving product with these changes after January 1, 2011.

Method to identify parts
Full traceability is maintained for this product; changeover datecodes and lot numbers will be provided.

Customer Impact
No customer impact is anticipated as there is no change to form, fit, or function. Qualification reports will be available upon request.

We are confident this change will allow Mindspeed Technologies to maintain its high standards for quality and reliability. We will be managing this change very closely to ensure minimum disruption to our customers. If, at any time, you have a need for further information, please contact your local Sales Representative.
