Description of Change(s)

Unisem Ipoh proposed to change the 16QSOP from the current high density leadframe (HD) to a matrix leadframe due to the high density leadframe production line is underutilized. The bill of material will remain the same and the package outline drawing is the same except the package stand-off which is changed to meet JEDEC MO137.

	HD Leadframe	Matrix Leadframe
Standoff height (mils)	1 – 4	4 – 9.8

Method of Identifying Change

The lot number is traceable to the change. There will be no product marking change.

Reason for Change

To ensure capacity by aligning with the supplier's high volume package option.

Customer Impact

No customer impact is anticipated as Unisem is running this package in high production volumes.

Proposed First Ship Date for Change: April 1, 2013
